

Transport **North East**

Changes to the Tyne Tunnels toll
exemption for disabled people

**Your consultation feedback and
our response**

Moving to a green, healthy, dynamic and thriving North East.

Background

The purpose of this consultation was to obtain input from the public on changes to the disabled person exemption at the Tyne Tunnels. Change is necessary in order to implement the Tyne Pass barrier-less open road tolling scheme which is anticipated to come into operation in late 2021. This new open road scheme will see the removal of all barriers at the Tyne Tunnels and will bring benefits to tunnel users, as it will reduce journey times and will significantly reduce carbon emissions from vehicles using the tunnels.

The change to the disabled person exemption would affect all current Blue Badge holders and new applicants.

The current scheme at the Tyne Tunnels allows two types of toll exemption for disabled people:

1. Vehicles registered with DVLA for a disabled person's exemption from road tax
2. Any vehicle carrying a Blue Badge holder.

Currently, disabled people travelling in vehicles that meet either of these conditions can apply for a Toll Exemption Account and receive a permit to use at the Tyne Tunnel barriers to prove the exemption.

It is also currently possible for a Blue Badge holder in person to display the Blue Badge itself at the barriers, although this can cause unnecessary delays as it must be manually checked, and so holders are encouraged to apply for a Toll Exemption account.

With the introduction of the Tyne Pass barrierless open-road tolling scheme in late 2021, vehicles will no longer stop as they pass through the barrier area. All interactions with the tolling system will be through an Automatic Number Plate Recognition (ANPR) system and drivers will pay the toll due before or after their journey.

The new Tyne Pass system will benefit exempt drivers as they will not need to stop and prove their exemption by way of a permit or by a visual inspection of a badge, they will pass through in exactly the same manner as other drivers without having to stop or show any proof of exemption in public.

The ANPR system means that the ability to display a Blue Badge at a toll booth to prove exemption will not be possible. A change is therefore required for technical reasons to allow the barrierless free-flow scheme to operate.

There are two options which are under consideration for this change:

Option 1: Remove Blue Badges exemption. Blue Badge holders would no longer be exempt from paying the Toll. Only tax-exempt DVLA registered disabled users would be able to register their vehicles for an exemption.

Option 2: Continue Blue Badges exemption with mandatory registration of a vehicle. Blue Badge

holders would apply to register one vehicle number plate on TT2 systems and would therefore continue to be exempt from paying the Toll when using the registered vehicle.

Under all options the ability to present a Blue Badge in person at the barriers will no longer be possible.

Transport North East has consulted the public on the changes proposed to address this issue, on behalf of the North East Joint Transport Committee which is the authority responsible for implementing the change.

The consultation period ran from 17 February 2021 to 14 April 2021.

How we told you about the consultation

In order to reach out to as many people as possible, a multi-channel approach was used, including:

- posts on Transport North East social media channels and TT2 social media;
- information and an online survey were made readily available via transportnortheast.gov.uk;
- a dedicated email address signposted in our consultation document all queries for feedback;
- newspaper adverts across regional outlets via print and online, with digital impressions figures suggesting a reach of 50,009 people;
- Northern Echo, Sunderland Echo, Shields Gazette, Northumberland Gazette - four quarter page adverts
- The Journal and The Chronicle – quarter page advert
- TT2 advertising board at the Tyne Tunnels ran an advert for 28 days during the consultation period
- TT2 monthly newsletter promoted the consultation and was emailed to 25,361 customers and received 398 clicks
- e-mails to key stakeholders

Consultation open until 14 April 2021

We are consulting on a change to the disabled person exemption at the Tyne Tunnels. A change is needed to implement Tyne Pass, a new barrier-less free flow scheme which will come into operation this December. Blue Badge holders will be affected, as badges will no longer be able to be shown in person at the barriers, therefore options are being considered.

Visit www.transportnortheast.gov.uk/tunnelsconsultation to find out more and let us know your thoughts.

To respond to the consultation, please fill out the online survey or email NECATyneTunnels@transportnortheast.gov.uk before the closing date.

For further information call 0191 574 0031

Transport North East

We worked with local authorities, TT2 and a range of partners to ensure that messaging around the consultation was shared extensively.

We made sure that everyone's needs were taken into account by making sure the Consultation Document and the questionnaire were available in whatever format was required. This included large print and audio versions of the Consultation Document and an Easy Read version.

Recognising our aspiration to engage with disabled groups and local stakeholders, we also contacted 59 groups and organisations and asked them to engage with us and to publicise the consultation to their members.

Your response

In total, we had 226 replies as part of the consultation.

The majority of you responded by completing the questionnaire that accompanied the Tyne Tunnels consultation but we also received feedback over the phone, via email and via TT2.

To summarise, we received:

- 211 completed survey questionnaires;
- 2 phone calls;
- 13 e-mails.

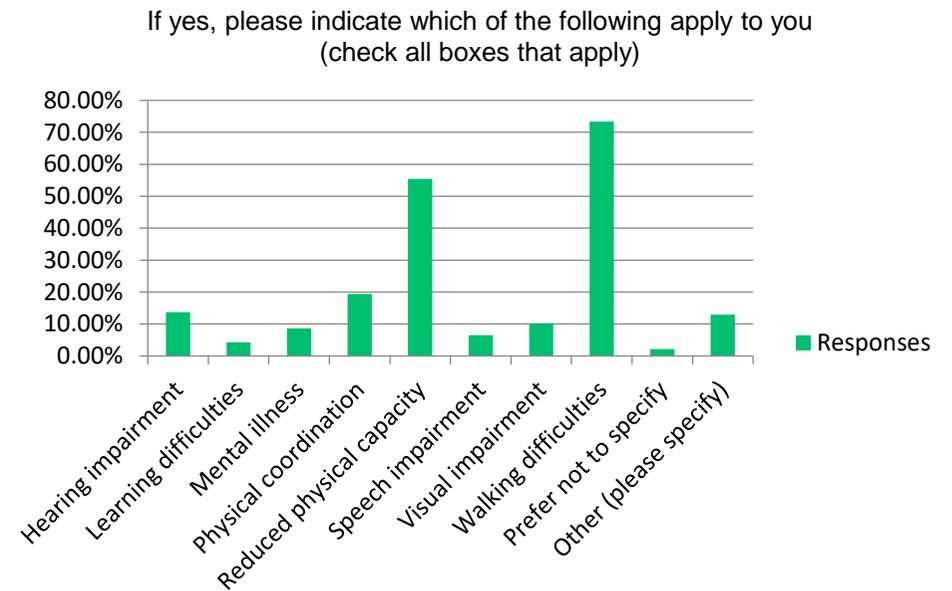

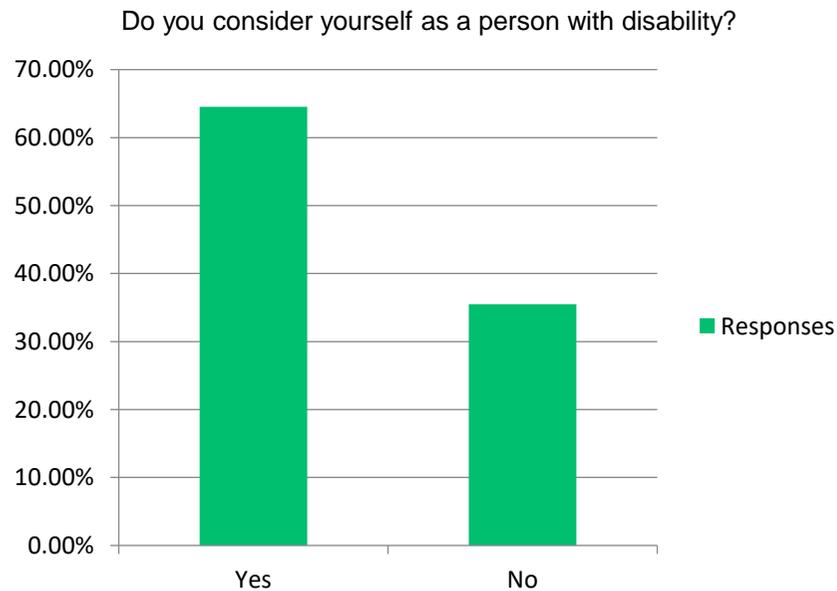

On average you took 8 minutes 20 seconds to complete the survey and everyone who took part completed 100% of the questions.

Who replied

The survey was designed to be completed by individuals to find out about their personal views and details of their own experiences using the Tyne Tunnels. When we contacted local groups and organisations they forwarded our flyer on to their members to ask the individual members to complete the survey. Some groups also reposted our social media messages, for example Age Concern.

- 98% of responses came individually
- 2% responses came directly from groups

- 64% of respondents consider themselves to have a disability
- Respondents indicated that they had various disabilities including hearing impairments, visual impairments and learning difficulties
- 56% of disabled respondents indicated that they have reduced physical capacity
- 70% of disabled respondents indicated that they have walking difficulties.

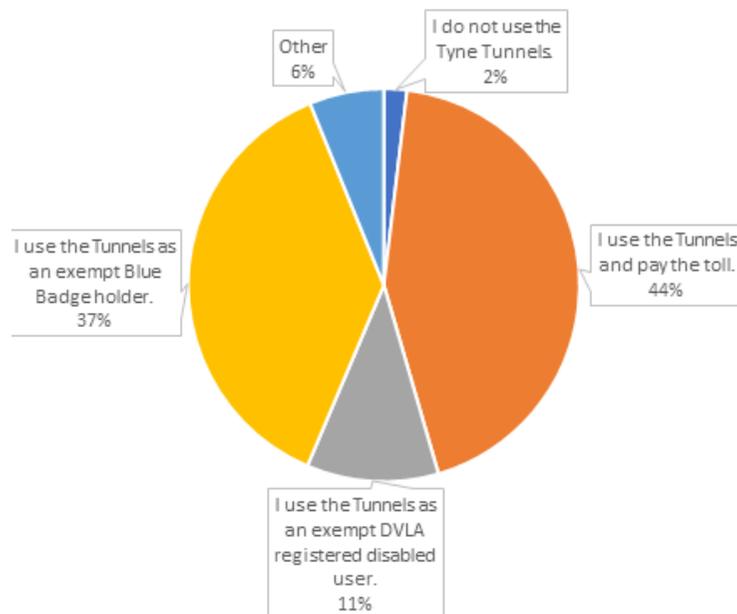

How you use the Tyne Tunnels

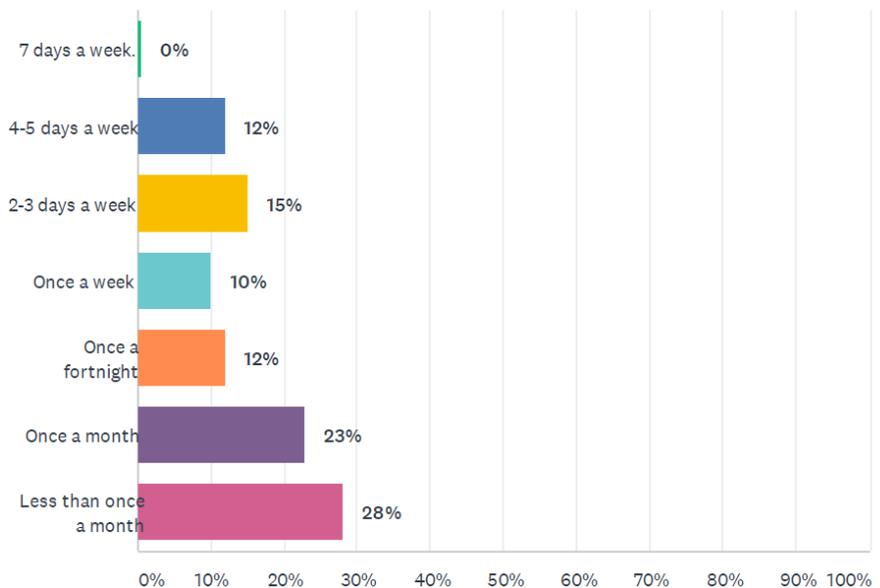

When we asked how you use the tunnels almost half of respondents (43%) pay a toll, while just under half (48%) make use of exemptions. Our analysis of the results shows that 23% of users who consider themselves disabled pay tolls despite their disability, which suggests that not all disabled users make use of a Blue Badge or a DVLA tax exemption.

When we asked how often you use the Tyne Tunnels, over half of respondents (51%) used it infrequently only once a month or less. However, 37% of respondents used the Tunnels every week at least once.

How do you use the Tyne Tunnels?

How often do you normally use the Tyne Tunnels?

What you told us

The feedback suggested that you were in favour of maintaining exemptions for disabled users.

When we asked you whether DVLA registered vehicles and Blue Badge holders should be exempt from paying the toll, the majority agreed that both exemptions should remain in place.

You also agreed (83%) that the Tyne Pass will provide a benefit for disabled users as they will not have to stop at the barriers and produce a permit, card or badge in public to prove the exemption.

Tyne Tunnels survey key questions and responses			
All figures in percentages, some may not add up to 100 due to rounding to nearest number	Agreed	Disagreed	Neither agreed or disagreed
DVLA registered vehicles should be exempt from paying tolls	75	21	3
Blue badge holders should be exempt from paying tolls	70	28	2
Tyne Pass will provide a benefit for disabled users	83	11	6

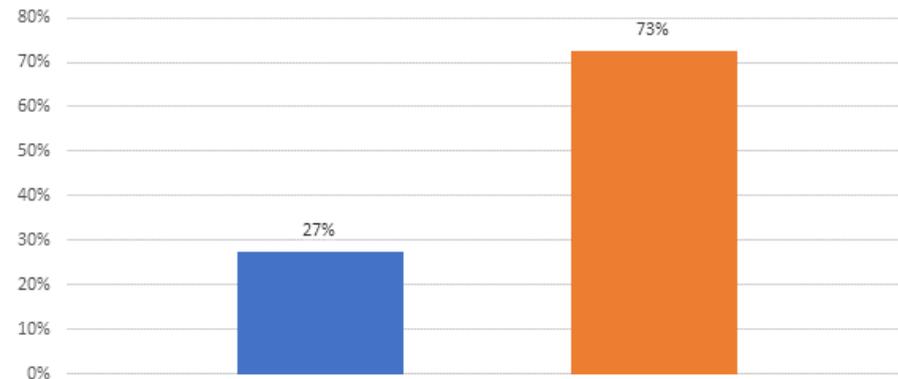

Your preferred option for the future

We set out two options which were under consideration to change the disabled exemptions to enable the Tyne Pass system to operate. Most respondents favoured Option 2 (73.3%) which retains the Blue Badge exemption allowing each badge holder to register a vehicle to claim their toll exemption automatically when their vehicle passes through the tunnels.

Given the overwhelming support for Option 2 we consider that this should be the recommended option to present to the Joint Transport Committee for disabled users of the Tyne Tunnels.

This option carries a cost, however, this cost is accounted for currently, so would not be an additional cost for the Tyne Tunnels budget.

Which option do you prefer, Option 1 or Option 2?
For more details on the options under consideration please read the consultation document.

Option 1: Remove Blue Badges exemption. Blue Badge holders would no longer be exempt from paying the Toll. Under this option, DVLA Registered Disabled person’s vehicles (tax exempt vehicles) would continue to be exempt.

Option 2: Continue Blue Badges exemption with mandatory registration of vehicle. Blue Badge holders would apply to register one vehicle number plate on TT2 systems and would therefore continue to be exempt from paying the Toll when travelling in that vehicle. Under this option, DVLA Registered Disabled person’s vehicles (tax exempt vehicles) would continue to be exempt.

Key insights from the consultation

Topic	Your Insights	Your views	Our response
<p>Should Blue Badge holders be exempt from the toll at the Tyne Tunnels?</p>	<p>There were a significant number (28%) of respondents who were of the opinion that Blue Badge holders should not be exempt from paying the toll. Views were expressed that everyone should pay something for using the tunnel, that the Blue Badge exemption was open to abuse and that it was intended as a parking benefit.</p> <p>However, far more respondents were in favour of retaining the exemption (70%). Some respondents explained that the car is a 'lifeline' and they cannot use public transport due to their disability, so rely on the exemption as a benefit and a vital aid to their accessibility.</p>	<p><i>"Why should people who are disabled not pay to travel through the tunnel like everyone else?"</i></p> <p><i>"I have a blue badge but pay for my journeys, the idea of a blue badge is easier nearer parking, not a free toll."</i></p> <p><i>"I work as much as I can without claiming the other benefits, but that is financially limited due to a disability that is hidden it is also hard to be heard and show the disability, so any support makes a huge difference."</i></p> <p><i>"Help for disabled people should be encouraged and the potential lost revenue for the tunnel would be small in comparison to the help it would be."</i></p> <p><i>"I regularly transport my disabled mother and providing easy access North of the Tyne improves her quality of life."</i></p> <p><i>"Disabled people often have a lot more to pay out to live their lives and have less income to do so. Help like this is fantastic and enables them to travel more"</i></p>	<p>One of the options under consideration was to remove the Blue Badge exemption altogether in line with most other toll operators in the UK, reflecting the fact that the Blue Badge scheme was intended as a parking benefit.</p> <p>However, having consulted with the public we understand much more about how valuable this benefit is to users and how it affects their lives and their finances.</p> <p>Some disabled respondents told us they travel to work via the tunnel and many told us they use their exemption when attending hospital and other medical appointments. The responses have given us an insight into the purpose of the journeys of disabled users and how the toll exemption can improve their quality of life as well as get them to work, education and medical appointments.</p> <p>The Transport Plan has an objective to "overcome inequality and grow our economy" and we consider that retaining the Blue Badge toll exemption would contribute to this aim.</p>

Topic	Your Insights	Your views	Our response
<p>Tyne Pass system is a new system - should we change from the status quo?</p>	<p>Some respondents stated that they don't want change and would rather keep the exemption as it is, but most felt that the Tyne Pass system would bring benefits.</p> <p>Nearly half of respondents (45%) were unconcerned at the change to Tyne Pass, reporting that the change would have little or no effect on them, provided that Option 2 was taken forward, as this Option ensures that they retain their Blue Badge exemption.</p>	<p><i>"It will cause more issues since there may be more Unpaid Toll Notices issued. Can we have a magnetic card (like TT2 season tickets) or similar so the barriers know as we approach, that we are exempt (in addition to ANPR)."</i></p> <p><i>"Option 2 is the most near-perfect option since it means little to no change for everybody."</i></p> <p><i>"I would be happy to register my vehicle with a blue badge for exemption for free passage through the tunnel."</i></p>	<p>Change to the disabled toll exemption is necessary in order to implement the Tyne Pass system. There is no option to keep things the same and implement the new system. There will be no toll barriers at all in the new system.</p> <p>The ANPR system means that the ability to display a Blue Badge at a toll booth to prove exemption will not be possible. A change is therefore required for technical reasons to allow the barrierless free-flow scheme to operate.</p> <p>Option 2 provides the least change for users as the Blue Badge toll exemption will still apply, but users will be required to register their vehicle and their exemption will be limited to one vehicle per badge holder. On the basis of this consultation, this is the Option which most consultees supported and which we intend recommending to the Joint Transport Committee.</p>

Topic	Your Insights	Your views	Our response
<p>Concerns about fraud and misuse of Blue Badges at Tyne Tunnels</p>	<p>People raised the issue that Blue Badge misuse and fraud is common and that the current system and the ANPR system could both be open to abuse. The most common fraud suggested is that a vehicle can pass through the tunnels and claim an exemption, even if the Blue Badge holder is not in the vehicle.</p>	<p><i>“The vehicle may not be occupied by the disabled person, therefore the system is open to abuse.”</i></p> <p><i>“Current system is open to abuse as it is impossible to know if the driver/user is the actual holder. Registering of one car per badge would reduce this.”</i></p>	<p>We are aware that Blue Badge fraud does take place and TT2 has carried out some research to understand the scale of the problem. Their research suggested that up to 1 in 5 vehicles claiming exemption may not be carrying the Blue Badge holder and that some users of a Toll Exemption permit were passing it to friends and family members to use for journeys.</p> <p>We consider that registration of a Blue Badge holders' vehicle as proposed for the Tyne Pass ANPR system will reduce this misuse as the exemption will attach to a vehicle rather than a hand held permit or badge and cannot be passed on to others to use when travelling through the tunnels.</p> <p>We understand that when a vehicle is registered on the ANPR system there will still be the potential for fraud as a driver could attempt to use the toll exemption even when the Blue Badge holder is not in the vehicle. We have asked TT2 to consider ways to discourage this via spot checks and the possibility of byelaw prosecutions in future for fraudulent use of the exemption.</p>

Topic	Your Insights	Your views	Our response
<p>Tyne Pass barrierless system will make user journeys easier and quicker</p>	<p>Many respondents were of the opinion that removal of the barriers will speed up journeys and make the whole experience easier.</p>	<p><i>“Less stress and hopefully a quicker journey.”</i></p> <p><i>“It will save stop start in queue and keep traffic flowing.”</i></p>	<p>We agree that this is an important benefit of the Tyne Pass system and will benefit all users. This is backed by evidence from Dartford and other toll crossings where free-flow has made a real difference to queuing and journey times.</p>
<p>Tyne Pass barrierless system is good for the environment</p>	<p>Respondents mentioned that the Tyne Pass system results in less emissions and less congestion and considered this as an important benefit of the Tyne Pass system.</p>	<p><i>“Smooth flow of traffic at all times with time and green benefits for all.”</i></p> <p><i>“Anything to reduce carbon footprint is beneficial.”</i></p>	<p>We recognise that this is a major benefit of the Tyne Pass scheme for the region. The system does not require vehicles to stop at a toll booth and accelerate to pull away from the toll plaza as the system is free-flowing and traffic will pass through without stopping. It is proven that on this basis carbon emissions will be significantly reduced. This is one of the main reasons why a change to barrierless tolling is welcomed and is supported by the North East Joint Transport Committee.</p>

Topic	Your Insights	Your views	Our response
<p>Tyne Pass freeflow will benefit disabled users as reduces stress or being different/singled out</p>	<p>Respondents reported finding the current system stressful and discriminatory as disabled users are treated differently from toll paying customers. They felt that the Tyne Pass system would be beneficial in this respect as it would treat all users the same and would eliminate this concern.</p>	<p><i>“It’s a benefit for all users, but specifically exempt users as those waiting behind are not inconvenienced nor is the exempt user subjected to any potential embarrassment from having to present an exemption.”</i></p> <p><i>“Sometimes I have to wait a while for someone to answer and I feel embarrassed when a queue builds up.”</i></p> <p><i>“As an occasional user of the Tunnels, the current system saves me money (I am on a very fixed income), but is frustrating at the toll booth as having to show my Blue badge can often take some time as the phone has to be answered, causing a build up of traffic waiting behind me. A “drive through” system will improve things greatly.”</i></p>	<p>This is an important benefit of the Tyne Pass Scheme which has become more apparent through the responses we have received to this consultation. It is clear that having to stop and show a card or badge could be seen to discriminate against disabled people as it singles them out as different. Having to press a button for a staff member to check the exemption means the user has to wait and traffic can build up behind the vehicle.</p> <p>The Tyne Pass scheme will eliminate this issue as all users will pass through in the same way and it will not be noticeable who is a disabled exempt user and who is a toll payer. All vehicles will pass through without stopping and the ANPR cameras will identify the vehicle and process any exemptions via the software system.</p>

Topic	Your Insights	Your views	Our response
<p>I need the ability to move between several vehicles</p>	<p>Several respondents raised the issue that they currently use their Blue Badge to travel in several vehicles and claim an exemption for each journey. This will not be possible in the Tyne Pass scheme as users will have to register one vehicle per badge holder. This means that for journeys in extra vehicles, users may have to pay the toll for those additional journeys.</p>	<p><i>“Tyne Pass will improve the journey for Blue Badge holders who regularly use Tyne Tunnels in the same car for each journey but will incur a cost for infrequent users or people who travel in different cars, perhaps because family members take turns to drive the Blue Badge holder.”</i></p>	<p>We understand that if Option 2 is implemented this means that users can register only one vehicle per badge holder. This will affect some users who travel in more than one vehicle. The effect will be financial as they will be toll exempt in their nominated vehicle but will have to pay the toll if they travel in a second or third vehicle.</p> <p>We have considered whether badge holders could nominate several vehicles, but this is considered disproportionately costly and could result in higher levels of fraud. It is also in line with the DVLA exemption to allow one vehicle per badge holder, as DVLA tax exempt disabled users can only register one vehicle.</p> <p>We have asked TT2 to amend the scheme to allow users to change their nominated vehicle each month to give users some flexibility and enable them to travel in a different vehicle if they need to change. TT2 has agreed to make this provision.</p>

Further insights

Topic	Your insights	Your views	Our response
<p>How will the systems work?</p>	<p>Some consultees were not clear how the system would work.</p>	<p><i>“I have a blue badge. How do I show this, if there are no barriers?”</i></p> <p><i>“Unsure how a Blue Badge holder would be recognised”</i></p>	<p>There will be no barriers in the Tyne Pass system and no ability to show a Blue Badge. This is why we need to make changes to the disabled exemptions as they cannot work in the same way as before.</p> <p>If Option 2 is approved, Blue Badge exemptions will be maintained and all users will need to register with TT2 and provide their vehicle registration number which can be recognised by the ANPR cameras.</p>
<p>How can I pay for a journey if the Blue Badge holder is not in the vehicle?</p>	<p>Some respondents wanted more information on how to pay for a journey when the Blue Badge holder is not in the vehicle.</p>	<p><i>“How will the TT2 system know that my registered vehicle may not be carrying my disabled brother (ie when I am travelling alone) and therefore not entitled to the exemption?”</i></p> <p><i>“On the issue of registered vehicles being used on non-disabled business I would think that you should be able to adapt your post-pay software to allow such drivers to either pay or charge to a pre-paid account after the event and hence stay legal.”</i></p>	<p>We have taken account of these requests for information and have asked TT2 to provide clear information to all drivers on how to use the new systems.</p> <p>It is clear that TT2 must make available a straightforward process for drivers to be able to pay for their journey if their car is registered as exempt, but they make a journey without the Blue Badge holder in the vehicle. TT2 is in the process of setting up payment systems to facilitate this and will provide information on this function in due course.</p>

Topic	Your Insights	Our response	Your views
<p>The registration system must be easy to use for disabled users.</p>	<p>Several respondents had technical queries about how the registration system would work.</p>	<p><i>“Not all users are confident with online systems”</i></p>	<p>It is imperative that the system for registration must be easy to use and there must be provision made for disabled users who need assistance with registration as some may not be able to go online to register.</p> <p>TT2 is currently investigating how to make the registration process more simple and straight forward for disabled users and intends granting users access to their account online or via an app when the system is operational. This would give users the ability to easily add and change their nominated vehicle each month (if required). It is proposed that there will either be a dedicated TT2 app for disabled users or a functionality on the main TT2 app which will be specifically designed for disabled users with features to make the process easier to understand and follow.</p> <p>We also intend engaging with local disabled groups over the coming months of Tyne Pass implementation to provide them with information on the vehicle registration process for disabled toll exemptions. This means that groups can provide information and assistance to their members to enable them to register their vehicle and can provide TT2 with ongoing advice and guidance on how to make the process more accessible.</p> <p>TT2 is also making provision for users who cannot easily use online/digital services to telephone a customer services advisor who can talk them through the registration process and assist them in setting up their toll exemption account.</p>

Topic	Your Insights	Our response	Your views
<p>The system should be automatic for DVLA tax exempt registered disabled vehicles.</p>	<p>Users of the DVLA registration asked whether this could be an automatic exemption.</p>	<p><i>“Tyne Tunnel should adopt the Dartford Tunnel system where there is no need to apply for exemption in advance. Their system uses the DVLA database and identifies the car as a DVLA Registered Disabled person's vehicle. That removes any need to register the vehicle.”</i></p>	<p>We have asked TT2 to consider whether their systems can be adapted to allow DVLA registered vehicles to be automatically identified, rather than asking all DVLA exempt vehicles to register with TT2.</p>

Conclusion

We're grateful for your feedback as we look to the future for the Tyne Tunnels and the Tyne Pass barrierless scheme. Your insights have given us a better picture of what steps we need to take going forward and will prove to be crucial in deciding where we go regarding the future of the toll exemptions through the Tyne Tunnels, with every single response and comment having been carefully considered and accounted for.

Having taken on board all the feedback and insights provided by this consultation, we intend making a recommendation to the North East Joint Transport Committee to maintain both of the disabled exemptions at the Tyne Tunnels, namely the DVLA registered disabled person's vehicle exemption and the Blue Badge exemption.

We intend recommending Option 2 which will allow Blue Badge holders to register one vehicle per badge holder for a toll exemption.

Following the insight provided by this consultation we are working closely with TT2 to ensure their systems and processes for the Tyne Pass scheme are adapted to suit the needs of disabled users. The aim is to provide the best customer experience possible for Blue Badge holders and DVLA registered disabled drivers using the Tyne Tunnels.

Appendices

EASY READ VERSION OF CONSULTATION DOCUMENT

Tyne Tunnels

Changes to the toll exemption for disabled people

February 2021

Do you use the Tyne Tunnels?

We are making changes to the toll exemption for disabled people.

1

Toll exemption is when you do not have to pay to use the tunnels.

We are asking you to tell us what you think.

2

The changes will affect:

- Blue Badge holders
- new applicants (this means people asking for toll exemption for the first time)

3

The way it works now:

1. if you are a disabled person,

and your car is registered with DVLA,

and DVLA has agreed you do not pay road tax for it,

4

OR

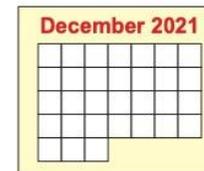

2. if you are a Blue Badge holder,

you can apply for a Toll Exemption Account.

This means you can get a permit to show at the barriers,

so that you do not have to pay the toll.

5

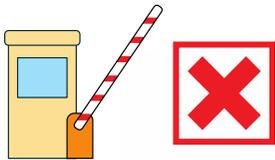

Or, you can show your Blue Badge at the barriers,

so that you do not have to pay the toll.

From December 2021:

There will be a new way of driving through the Tyne Tunnels.

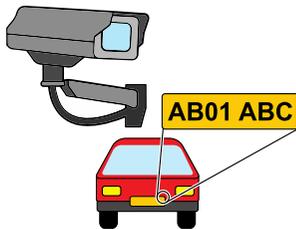

6

It is called a free flow scheme.
There will not be any barriers.

Traffic will not have to stop.

Instead, cameras will check
the car number plates.

7

Drivers will pay the toll before
or after their journey.

If you are a disabled person,

you will drive through just like
everyone else.

8

You will not be able to stop.

You will not be able to show your badge or permit.

So we need to make some changes.

There are 2 changes we are thinking about:

9

Option 1: Remove Blue Badges exemption.

This means even if you have a Blue Badge,

you will have to pay the toll like everyone else.

You can apply for your car to be exempt, but only if:

10

you are a disabled person,
and

your car is registered with
DVLA, and

DVLA has agreed you do not
pay road tax for it.

11

**Option 2: Continue
Blue Badges
exemption with
mandatory
registration of a
vehicle.**

This means if you have a Blue
Badge,

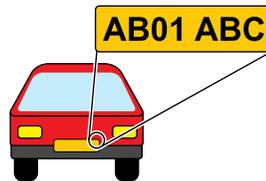

you can choose **1** car to be
exempt.

12

Transport North East

You will have to apply for an exemption.

You will have to tell us the car number plate.

13

When you drive through the tunnels in this car, you will not have to pay the toll.

Transport North East

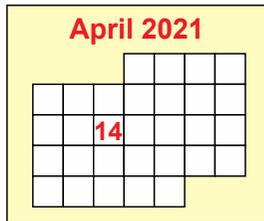

Transport North East is keen to know what you think.

14

Please fill in the online survey at:

www.transportnortheast.gov.uk/tunnelsconsultation

The survey will close on **14 April 2021.**

15

If you have any questions,

please call: **0191 5740031**

or email: **NECATyneTunnels@transportnortheast.gov.uk**

16

Disabled Exemptions at Tyne Tunnels Consultation

Please provide as much supporting evidence as possible with each of your responses to the following questions.

Thank you for taking part in the consultation. The closing date is 14th April, 2021.

Before proceeding with the following questions, please read the consultation [document](#).

All starred (*) questions require an answer.

* 1. I am responding on behalf of

- Individual
- Company
- Charity
- Organisation

2. If responding on behalf of a company, charity or organisation, please make it clear who is being represented and, where applicable, how the views of members were assembled.

* 3. Do you consider yourself as a person with disability?

- Yes
- No

4. If yes, please indicate which of the following apply to you (check all boxes that apply)

- | | |
|--|--|
| <input type="checkbox"/> Hearing impairment | <input type="checkbox"/> Speech impairment |
| <input type="checkbox"/> Learning difficulties | <input type="checkbox"/> Visual impairment |
| <input type="checkbox"/> Mental illness | <input type="checkbox"/> Walking difficulties |
| <input type="checkbox"/> Physical coordination | <input type="checkbox"/> Prefer not to specify |
| <input type="checkbox"/> Reduced physical capacity | |
| <input type="checkbox"/> Other (please specify) | |

* 5. How do you use the Tyne Tunnels?

- I do not use the Tyne Tunnels.
- I use the Tunnels and pay the toll.
- I use the Tunnels as an exempt DVLA registered disabled user.
- I use the Tunnels as an exempt Blue Badge holder.
- Other (please specify)

* 6. How often do you normally use the Tyne Tunnels? (Tick whichever is most applicable)

- 7 days a week.
- 4-5 days a week
- 2-3 days a week
- Once a week
- Once a fortnight
- Once a month
- Less than once a month

* 7. The Tyne Pass free-flow system will provide a smoother and quicker journey through the Tyne Tunnels for exempt disabled users as they will not have to stop at the barriers and produce a permit, card or badge in public, to prove their exemption. Do you agree that this is a benefit for exempt disabled users of the Tyne Tunnels?

- Agree
- Disagree
- Don't know

Please provide a reason for your answer.

* 8. Do you agree or disagree that DVLA Registered Disabled person's vehicles (tax exempt vehicles) should be exempt from paying the toll at the Tyne Tunnels?

- Agree
- Disagree
- Don't know

Please provide a reason for your answer.

* 9. Do you agree or disagree that Blue Badge holders should be exempt from paying the toll at the Tyne Tunnels?

- Agree
- Disagree
- Don't know

Please provide a reason for your answer.

* 10. Which option do you prefer, Option 1 or Option 2?

For more details on the options under consideration please read the consultation [document](#).

- Option 1: Remove Blue Badges exemption.** Blue Badge holders would no longer be exempt from paying the Toll. Under this option, DVLA Registered Disabled person's vehicles (tax exempt vehicles) would continue to be exempt.
- Option 2: Continue Blue Badges exemption with mandatory registration of vehicle.** Blue Badge holders would apply to register one vehicle number plate on TT2 systems and would therefore continue to be exempt from paying the Toll when travelling in that vehicle. Under this option, DVLA Registered Disabled person's vehicles (tax exempt vehicles) would continue to be exempt.

If you have any other comment about this proposal and the options, please tell us below.

11. How will you be affected if **Option 1** is approved as the most suitable option?

12. How will you be affected if **Option 2** is approved as the most suitable option?
