- 8.6.9 Following any discussion by a Local Bus Board pursuant to sections 8.6.6 or 8.6.7 in respect of a Proposed Variation, the NEJTC and any Authority affected by the Proposed Variation shall be entitled to promptly confirm agreement to that Proposed Variation following a formal decision by such Authority to the Proposed Variation, and within seven working days of the final approval of NEJTC or any relevant Authority the NEJTC shall publish the revised EP Scheme on its website on behalf of the Authorities.

8.7 Revocation of an EP Scheme

- 8.7.1 An EP Scheme can only exist if an EP Plan is in place and an EP Plan requires at least one EP Scheme to be in place, therefore:

8.7.1.1 if the North East Enhanced Partnership Plan is revoked then this will automatically lead to this EP Scheme ceasing; and

8.7.1.2 if this EP Scheme is revoked then unless another EP Scheme is in place in the area of the North East Enhanced Partnership Plan, the North East Enhanced Partnership Plan will cease.

8.7.2 If any Authority or Operator of Local Services believes it is necessary to revoke this EP Scheme, then in accordance with section 138E of the Transport Act 2000, the procedure at section 8.6 shall apply to revocation in place of the provisions of section 138O of the Transport Act 2000 to revoke the EP Scheme, on the basis that the Proposed Variation will be revocation of this EP Scheme, and such Proposed Variation will therefore be relevant to all Authorities and Operators.

8.8 Franchising Scheme

If at any point in the future, any area covered by this EP Scheme is included in a bus franchising scheme, the relevant requirements set out in this EP Scheme document will cease to apply to areas covered by the franchising scheme, in line with the arrangements set out in the franchising scheme.

8.9 Funding of Network Improvements

8.9.1 Where for the purposes of implementation of any Proposed Variation made pursuant to this section 8 one or more Local Transport Authority would be required to subsidise the provision of all or part of a Local Service, the Local Transport Authorities shall comply with their duties under section 88(2) Transport Act 1985 to, in exercising and performing their functions with respect to securing the provision of public passenger transport services to co-operate with one another so as to secure, in the interests of the ratepayers in their areas, the best value for money from their expenditure on public passenger transport services, taken as a whole, which may include consideration of:

8.9.1.1 which Local Transport Authority is able to secure the best value for money for any services which operate across the boundary between the two authorities, taking into account the powers available to each respective authority to tender or otherwise award contracts for such services;

8.9.1.2 other funding sources available to each such Local Transport Authority that may be utilised to fund those, or other local services, or otherwise reduce the overall cost of provision of such services,

and references to a Local Transport Authority in this section 8.9.1 shall be taken to include Durham, Nexus (and/or the Tyne and Wear Sub Committee acting on behalf of the NEJTC) and/or Northumberland, where Durham, Nexus (and/or the Tyne and Wear Sub Committee acting on behalf of the NEJTC) and/or Northumberland are exercising the functions of a local transport authority in relation to subsidising the provision of all or part of a Local Service.

8.9.2 Where any Proposed Variation requires the subsidy of one or more (or part of one or more) Local Service in order to be implemented, the NEJTC may require that they are provided with details of which party shall procure such Local Service, the subsidy available, and the legal basis upon which such Local Service shall be procured, prior to forwarding such request in accordance with section 8.6.4.

8.10 Complementary Arrangements

Where for the purposes of implementation of any Proposed Variation made pursuant to this section 8 one or more Local Transport Authority would be required to:

- 8.10.1 implement additional statutory schemes (including, but not limited to, advanced quality partnership schemes, or advanced ticketing schemes);
- 8.10.2 enter into agreements with one or more Operators (whether a voluntary partnership agreement or otherwise); or
- 8.10.3 certify any qualifying agreement between Operators,

then where it is agreed that such Proposed Variation shall be implemented the relevant authority shall use reasonable endeavours to implement such scheme(s) and/or agreement(s) provided that nothing in this EP Scheme shall be taken to reduce or remove any requirement that might apply to such authority in respect of implementation of such scheme or agreement pursuant to the Transport Act 2000 or otherwise, including, but not limited to the requirement for such authority to apply the relevant competition test pursuant to Schedule 10 to the Transport Act 2000.

8.11 Reporting of Operator Savings Derived from EP Scheme

8.11.1 Each Operator shall report savings it has made to TNE on an annual basis for the purposes of complying with the requirement set out at reference OPR01 in the table in paragraph 1.3 (*General*) of Schedule 3 (*Requirements in respect of Local Services*), and such savings to be reported shall include but not be limited to:

- 8.11.1.1 cash savings made by that Operator;
- 8.11.1.2 savings made by that Operator which relate to assets and/or resources available to that Operator and/or which no longer need to be utilised by that Operator as a result of the implementation of Facilities and/or Measures in accordance with Schedule 2 (*Facilities and Measures*) of this EP Scheme, and/or requirements imposed on Operators in accordance with Schedule 3 (*Requirements in respect of Local Services*) of this EP Scheme; and/or
- 8.11.1.3 other operational expenditure in respect of Local Services operating in the EP Scheme Area which that Operator no longer needs to expend,

which are, in each case, derived directly from this EP Scheme.

8.12 Intention of Governance Arrangements

8.12.1 The governance arrangements set out in this section 8 are intended to enable the implementation of the EP Plan, which may include:

- 8.12.1.1 variations to this EP Scheme, either in accordance with the provisions of section 138K to 138N of the Transport Act 2000 or the process set out in section 8.6 of this EP Scheme; or
- 8.12.1.2 implementation through other means, including those set out in section 8.10.

9. Competition

- 9.1 The EP Plan and the EP Scheme have been developed with all operators of Local Services, and the EP Scheme does not have and is not likely to have a significantly adverse effect on competition. The competition test set out in Part 1 of Schedule 10 to the Transport Act 2000 has been applied and it is concluded that, at this point, there will be no significantly adverse effect on competition arising from the EP Plan or the EP Scheme.
- 9.2 Where a Proposed Variation is to be effected to this EP Scheme in accordance with section 8 the NEJTC shall apply the competition test set out in Part 1 of Schedule 10 to the Transport Act 2000 on behalf of NECA and NTCA and the Proposed Variation to the EP Scheme shall not be made if the NEJTC is unable to conclude either:
- 9.2.1 that the making of the Proposed Variation will not have or be likely to have a significantly adverse effect on competition; or
 - 9.2.2 that the making of the Proposed Variation is justified by paragraph 2(2) of Part 1 of Schedule 10 to the Transport Act 2000.

ANNEX 1: INDICATIVE CODE OF CONDUCT

Defined Terms

“**LA/PTE**” Local Authority/ Public Transport Executive, in the EP area this applies to Durham County Council, Northumberland County Council and Nexus

“**Partnership Board**” The North East Bus Partnership Board will provide governance to the North East bus Enhanced Partnership

“**LTA**” Local Transport Authority, in the EP area this refers to The Joint Transport Committee who delegate their powers for secured bus services out to the LA/PTE as defined above.

Introduction

The North East Bus Service Code of Conduct has been drafted between the region’s bus operators and local authorities as well as Transport North East (TNE) and Nexus. The Code of Conduct responds to issues raised during public and stakeholder consultation regarding the current process of bus services changes. This code introduces a consistent standard to ensure network changes can be made in an orderly manner and communities and bus users are adequately consulted with.

Code of Conduct – Management process for making changes to or on the bus network

As is the case at present, planned network changes by operators will be implemented at fixed dates in the year, which are agreed annually with the LA/PTE, in order to retain customer confidence, limit pressure on publicity functions and assist contract management. It is acknowledged that flexibility will be required to respond to circumstances where there is seasonal demand or where there are reliability concerns.

Under certain situations it may also be agreed that a bus operator does not need to give advanced notice of changes, beyond the statutory requirements. This may be when a change will be beneficial to the bus network and therefore passengers, or when the affected LA/PTE and operator agree that a change is either immaterial or required, for example, to meet the requirements of a traffic regulation order.

The LA/PTE may also choose not to raise changes with Bus Boards, if they consider changes to be so minor and immaterial that the impact on passengers will be negligible.

- T-18 weeks – An operator determines the need to make a network change and submits initial proposals in writing to the appropriate LA/PTE, including Transport North East. The relevant bus board or boards are also identified so that changes can be communicated to elected members via correspondence from the local authority. Such a submission should include a short brief on the reasons for the change, including data if relevant and not commercially sensitive, demonstrating how the change or changes would impact the objectives set out in the Bus Service Improvement Plan (BSIP), Enhanced Partnership (EP) Plan and/or other current local transport policies. Where impacts are potentially or actually detrimental operators ought to detail methods of mitigation. On receipt Bus Board Chair to consider if the change(s) merits raising with the wider Local Bus Board. Any data requests, in line with section 6C of the Transport Act 1985, are to be made to operators at this time with the data provided as soon as is practicable for the LA/PTE to prepare feedback.

- T-15 weeks (latest) – Feedback on proposals to be sent to operators from LA/PTE *[It is expected that operators and LTAs communicate during this period to work through the proposals]*
- T-13 weeks – Plans, having taken into account initial feedback from Bus Boards and elected members, are ready for consultation.
- T-13 weeks – Authorities and / or operators undertake appropriate measures to publicise draft changes to routes and service levels, as well how feedback can be provided, via social media (push adverts if funding allows), websites and digital information boards at bus stops, in bus stations and on-board buses, where available and appropriate. Engagement to be held with key stakeholder bodies and the general public via “drop in” sessions as appropriate.
- T-11 weeks – Bus Board Chair to consider if a meeting is required, if so, Local bus board meeting is held to review feedback and discuss with operators if any amendments to the proposed changes can be taken. If changes affect multiple local authorities’ officers should attend all local bus board meetings to provide members with the full proposal. T-11 to T-6 week period is used to make any final amendments to aforementioned changes.
- T-10 weeks – Final registration draft copies are supplied to each relevant LA/PTE, encapsulating any feedback received to date. Based on the type of change taking place, the LA/PTE can invoke any data requests as per the Bus Services Act 2017.
- T-8 weeks – No further data or service amend requests can be provided beyond this date unless agreed critical. LA/PTE to ensure that relevant proformas are provided as soon as practical after this date and not unduly withheld.
- T-6 weeks – Services registered and 6-week period is used to promote network changes. Promotion to be undertaken by operators and the LA/PTE including social media, websites, apps, and digital information displays at bus stations, bus stops and on-board buses where available and appropriate.
- T-6 weeks – A partnership board meeting is held for an overview if changes are region wide or beyond the jurisdiction of local bus boards i.e. three or more areas.
- T-6 weeks – Traffic commissioner notified, unless all partners agree that a short-term notice will be acceptable. This may be when a change will be immaterial to bus users, offer an increased service or respond to short term events such as reliability challenges.
- T-4 weeks – Operators and Authorities begin to update and go live with customer information where applicable.
- T-2 weeks¹ – Revised bus service data (timetables/routes) to be updated for journey planning and real time passenger information systems. Roadside publicity updates begin to be undertaken for completion no later than T+1, best endeavours will be used to have updates completed by T-0.
- T-0 weeks – Changes, as agreed by all appropriate bodies in the weeks prior, go live.

¹ Where practicable and timetable finalisation has occurred on time, must occur between T-1 and T+1.
